

Intergovernmental Renewable Energy Organization

April 2nd, 2009

Mr. Richard Lin
Chairman
Dynamotive Energy Systems
Angus Corporate Centre
1700 West 75th Avenue, Suite 230
Vancouver BC V6P 6G2
Canada

Dear Mr. Lin,

On behalf of the **Intergovernmental Renewable Energy Organization (IREO)** we applaud Dynamotive's innovations in the extraction of BioOil from biomass and energy crops. Dynamotive's fast pyrolysis process of clean, highly efficient BioOil extraction represents a step forward in making widespread adoption of BioOil a reality.

Based on Mr. William Ho's nomination, your innovative achievements and current efforts of Dynamotive in BioOil we offer Dynamotive the **IREO Innovation Award**. The award was created to honor innovative leaders, such as Dynamotive; that are contributing to the research and development of sustainable energy solutions.

We would like to bestow this honor to Dynamotive during our upcoming gala award ceremony. The **2nd Annual IREO Renewable Energy Awards gala** will be held at the United Nations Headquarters on **June 11, 2009**. Hundreds from the global community plan to attend to share best practices and develop alliances in order to scale up the delivery of programs worldwide.

The need for global renewable energy solutions is immediate and never in our history has the international community's willingness to implement them been higher. The **IREO** is responding to the call to action from world leaders to deliver renewable energy solutions now.

The **IREO** is mobilizing support for programs that aim to: promote conservation; build alliances globally with leading organizations from all sectors focusing on emerging technologies; collaborate with governments to advocate for and utilize proven sustainable technologies; and to facilitate the transition from carbon based energy sources to renewable, particularly in developing nations.

Congratulation and thank you again, for your innovative work that has helped advance the research and to make the world a clearer and better place for all of us..

Sincerely,

Jason Keramidas,
Deputy Secretary – General, IREO
